Please reject the unfair, First Amendment violating NAB petition, 04-160! I PAY \$10 per month for this service! I don't listen to FM radio, I get my entertainment and information from XM radio. I travel extensively and use the convenient service of XM daily, in various parts of the country. XM is the best thing to come along since the first radio was introduced. They deserve to be rewarded for their innovations, not punished by the AM and FM stations that provide the same old worn out music, bothersome commercials and idiot DJs. Please do the ethical, moral and proper thing and reject the NAB petition.

Thanks!
Joe Koury
